Although the recommendations and predictions outlined in this report are intended to provide a general trading guide, no guarantee can be made that these recommendations and predictions will result in profits and prove to be accurate. INVEST RISK CAPITAL ONLY because investments in commodity futures and options have a high level of risk and this risk can result in loss of the entire amount invested and more. In addition, there is no way to guarantee that the risk of loss can be minimized through the use of protective stops due to factors, which among other things, include fluctuations in market liquidity.
